

News Letter 6

Dresden, November 27, 2015

Dear National Coordinators and Local Investigators of PROBESE,
Dear Friends,

thanks to your effort, patient enrollment runs quiet fast and we have almost reached 600 randomized patients. This means that we need to contact the Data Safety and Monitoring Board again for a last review on data completeness and safety questions.

Therefore, we urgently need your help: Please update your latest data into the electronic Case Report Form REDCap® within the next week. Thank you very much in advance.

And now, please enjoy this amazing figure, summarizing how far we have come until today.

Please let us know if we could be of any help.

Yours sincerely,

Thomas Bluth, MD
